Education

Alchemy Code Lab | 2021
800+ hour intensive JavaScript training focusing on agile development practices and test driven development done fully remotely.

University of Oregon | 2012 - 2016
B.S. Human Physiology

Featured Projects

Market Scraper   Github
React-Native, Node, Express, Puppeteer, PostgreSQL

A full stack iOS/Android application that aggregates local marketplace data based on location and search terms.
- Collaborated with a team of 6 over a 9 day sprint fully remotely.
- Point person for React Native functionality.
- Wrote RESTful API routes for authorization and search components

Hoops.io   Github | Website
React, Node, Express, Socket.io, PostgreSQL, React Beautiful DnD

A basketball information hub and fantasy basketball drafting tool.
- Spearheaded drag and drop functionality.
- Leveraged Sportsdata.io fantasy basketball API to get active players and projected fantasy points.
- Added an active lineup feature so that the database saves the position of the user's lineup.

Space Adventure   Github | Website
Vanilla JS, CSS, HTML

Choose your own adventure style game focused on replayability using DnD style random number generators.
- Combination of mob/pair programming over a 4 day sprint with a team of 4 engineers
- Created data models for user, items, scenarios, and characters
- Built item store feature to allow users to buy/sell items

Work Experience

Cellar Master/Lead/Assistant/Intern
Aug 2016 - Mar 2021

Stoller Family Estate Aug 2017 - March 2021
Martinborough Vineyard Feb 2017 - May 2017
Hunnicutt Winery Aug 2016 - Jan 2017

Carried out the winemaker's vision in pursuit of exceptional wine. Given responsibility to make logistical and technical decisions and carry them out in a procedural, documented manner. Expanded upon training programs to adapt to unique facility challenges.

Lab Technician
Oregon Institute of Molecular Biology June 2015 - June 2016

Followed detailed instructions to produce reagents and media for laboratory faculty. Maintained a clean, organized laboratory environment and created a training program for incoming technicians.
